It looked like some enormous serpent crawling out of its concealment. A terrible voice came from the interior of the cave, and he heard through all the roar the occasional groan of the multitude; but now when this great dark anemone crawled out the strange flowing white of the revolving enigma became the chief sound, and the people of the distant and remote concave by their perpetual noise.

To estimate the storm, says Bristow, do not count the hailstones, but the broken and broken trees and flowers. Alas! the general who, from on hill, gazed on the advancing enemy, had never seen to pass as they saw the dreadful gale, that long line of men. But cut through in many places as he saw, anemone picked himself together again, and glided over toward the hill of snow never becoming visible.

"Why don't they fight?" cried some one in the party, who saw the dark track of fallen men. But they did not fire for a long time. Meaning we could see the hill of snow, the puff of musketry leaped out of the earth. The French had buried themselves in rifle pits, and the hills seemed on fire. The Germans pressed on, an ever-oncoming wall that nothing could stop.

At last, at last, a great blaze from the rifle pits, and another, a long, low, white curtain of smoke, and the puff of musketry leaped out of the earth. The French had buried themselves in rifle pits, and the hills seemed on fire. The Germans pressed on, an ever-oncoming wall that nothing could stop.

LET US REASON TOGETHER!

Why are you sick? There must be a cause. Nature never intended that we should pass, as many do, nearly one-half of our lives in bodily pain. Thus it becomes evident that you have, in some way, broken Nature's laws. Your Sick-headache, your Nervous headache, your Bilious headache, Liver Complaint, Pain in the Side, and up under the Shoulder-blades, your Indigestion, Stomach, Flatulency, and Heartburn—your Constiveness, Piles, Scurvy, and Stomach—Eruptions, Roughness, and Blisters, on your face, neck, and arms—all these, and many other troubles and feelings of illness, are simply evidences of the fact that you have broken the laws on which Nature bases the body's ease, comfort, health, and strength of the human family, and the chances are as a hundred to one, that unless your system gets prompt aid, your trouble will go on increasing and gradually getting worse, until it is beyond human help. The point of great importance, then, is to obtain the proper remedy—something that will cure safely, and not by violent action or corroding influence jeopardize the health it is intended to restore. There is such a medicine—perfectly safe for the weak and most delicate, yet powerful enough for the strongest—something that cures every kind of disease or depraved matter, and expelling or neutralizing it—giving wonderful tone and strength to the stomach, vigor to the liver, and regularity to the bowels—use it, we say, that this medicine is—

BRISTOL'S

VEGETABLE SUGAR-COATED PILLS: strongly anti-bilious, powerfully tonic, and the best of all medicines. They are the result of long years of careful and laborious study; and in saying they are the best of all purgatives, we only repeat what is generally conceded.

A USEFUL PERFUME.

The expensive liquid odors which are sold in small vials as perfumes for the handkerchief are of no particular use or benefit to those who use them. It is not claimed that they exercise any beneficial influence upon the health, nor that they can in any way mitigate or relieve the nervous troubles with which so many ladies are afflicted; in fact their use is of no benefit whatever.

How different it is with that health-giving and delightful floral perfume

MURRAY & LAMMAN'S

ESSENCE OF STANGE. This is one of the rarest and speediest of cures for every form of nervousness. It relieves headache when other applications completely fail; it reinvigorates the fatigued and overtaxed body. It imparts force and buoyancy to the mental powers. It clears the complexion of all pimples, impurities, and roughness, and to the plain and exhausted invalid it lends strength, and gives ease and comfort, and yet without it.

THE MOST DELIGHTFUL OF PERFUMES.

The sense of smell never tires of it. Its fresh and exquisite fragrance when once enjoyed becomes a source of positive necessity.

It is this wonderful combination of the use of the agreeable, that has made MURRAY & LAMMAN'S ESSENCE OF STANGE so widely celebrated and so highly prized. In many warm climates, four to six bottles of it are used with the water of each bath, which is invigorates, renews, and strengthens the system; that the exasperating effects of climate are thrown off.

It is not alone in the richness or delicacy of its fragrance that MURRAY & LAMMAN'S ESSENCE OF STANGE equals, and even surpasses, the most expensive of the French and English perfumery, but also in its lasting power. The handkerchief sprinkled with it, is perfumed for weeks, or until it is washed; and unlike the inferior perfumes, it does not rather serve to offend or irritate its exquisite aroma.

As a cosmetic it is unequalled, imparting softness, clearness, smoothness, and whiteness to the face, neck, arms, and hands; but as there are counterfeits, it is necessary always to ask for the FLORIDA WATER prepared by MURRAY & LAMMAN, NEW YORK, who are the sole proprietors of the genuine article.
